DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Response filed 9/10/07 (page 6, line 12 - page 7, line 4), with respect to the rejection of claim(s) 1, 3, 5, & 7 under 35 USC §102 and the rejection of claims 5-6 under 35 USC §101 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of 35 USC §101.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claim 5 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claim 5 is drawn to functional descriptive material embodied on a computer readable medium. However, the program/algorithm itself merely manipulates data or an abstract idea, or merely solves a mathematical problem without a limitation to a practical application in the technological arts.

In order for a claimed invention to accomplish a practical application, it must produce a "useful, concrete and tangible

result" *State Street*, 149 F.3d at 1373, 47 USPQ2d at 1601-02 (see MPEP 2106.II.A). Currently, the claim does not recite a practical application. In order to for the claimed product to produce a "useful, concrete and tangible" result, recitation of one or more of the following elements is suggested:

The manipulation of data that represents a physical object or activity transformed from outside the computer.

A physical transformations outside the computer, for example in the form of pre or post computer processing activity.

A direct recitation of a practical application in the technological arts.

Alternatively, recitation of the "computer readable medium storing a computer program" as the claimed subject matter (rather than the present recitation of a "computer program" as the claimed subject matter) would render the claim statutory.

Allowable Subject Matter

4. Claims 1, 3, & 7 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter:

As noted above, Applicant's arguments with respect to the outstanding rejections of claims 1, 3, & 7 have been fully considered and are persuasive.

Conclusion

6. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
